The advantages and disadvantages of online shopping

مزايا وعيوب التسوق عبر النت

Most people now use the Internet on computers, smartphones and tablets to do a variety of tasks. For many people, these tasks include online shopping. From shopping for groceries to all kinds of clothes shopping, consumers are finding this the easiest way to get what they need, literally at the touch of a button. However, there are numerous and important disadvantages to shopping in this way.

معظم الناس الان يستخدمون النت على اجهزت الكمبيوتر والهواتف الذكية والاجهزة اللوحية للقيام بالعديد من المهام. بالنسبة للعديد من الاشخاص، هذه المهام تشمل التسوق عبر الانترنت. من التسوق لمحلات البقالة الى كل انواع تسوق الملابس، المستهلكون يجدون هذا اسهل طريقة للحصول الى ما يحتاجون اليه، حرفيا بكبسة زر. ومع ذلك هنالك العديد من السيئات المتعددة والمهمة للتسوق بهذه الطريقة.

Although using the Internet to shop is usually fairly easy, and there is often greater variety available, it is always a risk because you cannot try on or see in detail the item you wish to buy. In fact, the immediate 'convenience' of shopping in this way can end up being an inconvenience if the item is faulty or does not fit, or is just not what the customer wanted. It is true that the prices are better when you shop online, but, while it might be cheaper, there is a distinct disadvantage because you have to wait for the delivery of the purchases. Some people might prefer not to have any personal contact while shopping online, but it can save time in the end since there are always assistants to help with queries you might have during the transaction. In addition to this, there is the issue of Internet payment security; however, recently this has improved a lot.

على الرغم من استخدام النت للتسوق هو سهل الى حد ما، وهنالك غالبا تنوع كبير ومتاح، هو دائما خطر لانك لا يمكنك ان تحاول وان ترى بالتفصيل الشيء الذي ترغب بشرائه. في الواقع الراحة الفورية للتسوق يمثل هذا الاسلوب ينتهي بها الامر بان تكون مزعجة اذا كان هذا الشيء به خلل او لا يمكن اصلاحه، او ليس ما يريده الزبون. صحيح ان الاسعار افضل عند التسوق عبر النت، ولاكن ربما ان يكون ارخص، وهنالك سيئة إضافية متميزه لانه يجب عليك انتظار وصول المشتريات. بعض الناس يفضلون عدم اجراء اي اتصال اثناء التسوق عبر الانترنت، ولكنه يمكن توفير الوقت في النهاية لان هنالك دائما مساعدون يساعدون في الاستفسارات لديهم لهذه الصفقة. في الاضافة لذلك، هنالك مسألة الامن في طريقة الدفع عبر شبكة الانترنت. ومع ذلك في الاونه الاخيره تحسنت كثيرا.

The Internet has indeed given us a wider choice as consumers, as well as made some aspects of shopping more pleasant and convenient. However, it is nearly impossible, in my opinion, to forget the

disadvantages we experience from time to time, since these can and do influence the way in which we choose to shop.

الانترنت بالفعل اعطى لنا خيارا اوسع كمستهلكين، بالاضافة انه جعل بعض جوانب التسوق اكثر متعة وراحة. ومع ذلك فانه تقريبا من المستحيل ، في رأيي، ان ننسا المساوى التي نواجهها من وقت لآخر لانها قد تؤثر على الطريقة التي بها نختار للتسوق.

Worldwide transport in the future المواصلات في جميع انحاء العالم في المستقبل

It is of course difficult to say exactly what transportation will look like in the future, because of the infrastructural changes that are happening constantly at the moment. To me, it seems that transport may well have changed a lot in one hundred years' time.

من الصعب طبعا أن تقول بالضبط ماذا سيبدو النقل في المستقبل، بسبب التغيرات في البنية التحتية التي تحدث باستمرار في الوقت الراهن. بالنسبة لي، يبدو أن النقل قد يكون قد تغير كثيرا في وقت المئة سنة.

Perhaps there will be no more private transport by 2115 CE. It is possible that public transport will have improved so much that no one will need their own cars. We might all be zooming around in ecologically-sound electric buses and trams that will take us to our destinations smoothly!

ربما لا يكون هناك نقل خاص اكثر بحلول عام 2115. من الممكن ان يتحسن النقل العام كثيرا جدا مما لا احد سيحتاج سياراتهم الخاصة. نحن سوف نتنقل بسرعة في باصات وترامات (وسيلة نقل) كهربائية سليمة بيئيا والتي سوف تأخذنا الى وجهتنا بسلاسة.

In order to get to other countries, we will be taking airships, which will be like aeroplanes but with more facilities available. It will be possible to travel to the other side of the world in much less time, because these airships will race around at a far greater velocity.

للوصول الى دول أخرى، سوف نأخذ مناطيط، والتي ستكون كطائرات ولكن مع المزيد من التسهيلات المتاحة. سيكون من الممكن ان تسافر الى الجانب الاخر من العالم في وقت اقل بكثير، بسبب تلك المناطيد سوف تسافر حول العالم بسرعة اكبر بكثير.

Finally, modes of transport are always changing, depending on many different factors, but one thing is certain; we will still be travelling the whole world! We might even be able to experience weightlessness by travelling to space!

واخيرا، وسائل النقل تتغير دائما، معتمده على عدة عوامل مختلفة، لكن شئ واحد مؤكد، اننا سوف نساغر الى جميع انحاء العالم! ربما سنكون قادرين على تخفيض الوزن عن طريق السفر الى الفضاء.

Some people think that it is important to use leisure time for activities that develop the mind, such as reading and doing crossword puzzles. Others feel that it is important to give one's mind a rest in leisure time.

Most of the people find relaxing activities like reading a book while others love to stay in the park, just see a boring TV channel or discuss with friends in front of a cup of tea or coffee.

Reading has always been one of the activities that fascinated the human mind and as long as we read books written in a language that we do not find difficult to understand, we should find reading a relaxing activity. omar jawarneh.

Another activity which I personally consider is outdoor activities with family members or friends. This activities will help us be in a good shape for a long period of time and in the same time will help us develop strong close relationships. For example I remember that when I was younger, I was going a lot for fishing with my father and over the years this activity become very important for us and made us to have a very special relation.

In conclusion spending our time is very important and we should have a really clear idea between spending some time and losing some time. I just hope that less and less people will find important activities like playing computer games and watch television series.

Obesity/Overweight

Over the last few years, there has been a dramatic increase in the number of overweight people in the world. This can be the reason of unhealthy eating habits and lack of physical activity. Obesity is a major health problem. It is a risk factor for diabetes, stroke and heart disease.

Consumption of junk foods is the number one cause of obesity. Junk or fast foods are rich in calories and unhealthy fats. When we consume more calories than our body can burn, it will convert the calories into fat. As a result people who consume calorie rich foods gain weight.

Late night dinners are another cause of overweight. When we have a heavy meal immediately before going to bed, the body does not get an opportunity to burn it.

Most of us have jobs that allow us to spend our entire day in a chair. This lack of physical activity reduces our requirement for calories. omar jawarneh

Limiting the consumption of calories and making physical activity is the only way to fight obesity. Our bodies are designed to move. When we exercise, we do not only burn the calories but also reduce our risk for a lot of illnesses like diabetes and heart disease. We must make an effort to stay away from fatty foods. We must also ensure that we are having low calorie healthy meals.

In conclusion, while it is true that the number of obese people is on the rise this problem can be tackled by making appropriate changes to our lifestyle and eating habits.

Complementary medicine/ alternative/homoeopathy

Some complementary practices have been studied and tested, but most have not been studied with well-designed trials. That means there are still many questions about these practices. However the negative side to alternative medicine is that there is limited amount of scientific facts and research showing detailed study of a certain herb. So before using you need to consult your doctor to make sure it's ok for you to use.

There are many advantages of complementary medicine such as it teaches you to become more responsible for your health and it may not be as costly as modern treatments and medications. Some complementary therapies involve using only natural ingredients in medications and treatments, and these are usually readily available in your kitchen cabinet, your garden, or from your natural surroundings. Omar jawarneh

There are many disadvantages of complementary medicine such as it takes time to work. It usually takes several hours or even months before you can see any positive effects. And also it might interact with certain medication. Some herbal remedies might interact with prescription drugs .That is why you must always inform your conventional or complementary practitioner about the medicines you are currently taking

In conclusion, you should choose an instructor or practitioner as carefully as you would choose a doctor. find out about the safety of any complementary product or practice you want to try.

The world in the future

We are living in a fast developing society with incredible changes that improve the quality of life. The 21st century has begun. I hope it would bring some changes to the world of technology, healthcare and medical science, and culture.

First of all, Computer controlled robots and machines will gradually replace manual labor or the use of human effort. This will help people save time and power. Scientific research will find new

solutions for vital problems that the world is facing such as diseases, pollution, growth population.
omar jawarneh

Second of all, the improvements in healthcare as well as medical science will play their role in our health. There are some threatening diseases such as cancers and AIDS. I hope in near future there will be medicines and methods of treatment. In addition, I expect more and more artificial parts of human body will be found and improved to replace ones of some patients.

Finally, the last thing I hope the 21st century will bring to our society is the changes in culture. For instance in music, more and more kinds of music as well as instruments will be invented to adapt to hobbies or ages of people.

In conclusion, I believe the 21st century will bring a lot of changes in almost fields. Hope these will be positive aspects that give improvements in quality of life.

Write an essay about health conditions in Jordan, suggesting the ways to enhance health conditions in Jordan as well as the ways to avoid diseases an infection.

الاجابة:

Health is a very important aspect in our life. I am going to write about the ways to enhance health conditions in Jordan as well as the ways to avoid diseases an infection. It is an important topic to spot light on it.

There are many ways to enhance health conditions. For example, people shouldn't throw rubbish anywhere. They should put it in rubbish containers. In addition, we should wash our hands before and after having food. Moreover, it is an important idea to avoid eating fruit and vegetables without washing them. It is also important to avoid wasting water on useless things.

I think we should find more ways to improve health conditions in Jordan to keep fit and healthier.

health facilities in Jordan and how it treats with corona virus

The aim of this report is to discuss the health facilities in Jordan and how it treats with corona virus . I think that is a very important subject to talk about it in details because it has strong relation and effect with our life in our country, Jordan.

There are many things that make health facilities in Jordan among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing that have made our community healthier. Another thing is the reputation of Jordanian doctors that has spread in the region, and now many more patients come to Jordan for open heart surgery.

The country's health care system is divided between public and private institutions. In the public sector, the Ministry of Health operates 1,245 primary health-care centers and 27 hospitals, these hospital are known among the Middle East such as King Hussein Cancer Center and king Abdullah university hospital that is located in Irbid.

As soon as coronavirus in China emerged , Jordan's Health Ministry designated certain hospitals to treat infections and established several protocols to deal with the arrival of the coronavirus to the country, when the country recorded its first case. The government suspended schools, banned public gatherings and closed the borders and airports in response to the rapid spread of the virus in countries surrounding Jordan and around the world.

Finally, I'd like to say that I hope I have given enough and useful information that expresses my ideas in this report.

Face-to-face as well as distance learning are completely different methods of learning, and each student prefers one of them. In about 180 words write about each method, discussing the main advantages and disadvantages of each.

الإجابة:

Everyone likes learning and everyone prefers a certain ways of learning. Some students like face-to-face learning, but others like distance learning program. However, each way has its own advantages and disadvantages. So in this report, I am going to talk about the advantages and disadvantages of both face to face learning and distance learning programs.

On one hand, There are many advantages of face-to face learning such as it is a good way of interaction between students and teachers. In addition, it is a way to work in groups and to check information. On the other hand, there are some disadvantages of face-to-face learning. Such as it wastes time by going to and from school and inability to work while studying . Moreover, students get bored by attending long lessons.

Also, There are many advantages of distance learning program. For example, it saves time and effort instead of spending a long time going to and from the school. Moreover, it is a way to enable student to study and work at the same time and material available in anytime and anywhere . However, there are some disadvantages of distance learning. For example, it lacks interaction that is essential among students. Moreover, students lack the direct information, checking information and friends.

I think, face-to-face learning and distance learning should work together to achieve successful results at school.

السؤال:

Countries need to export and import to and from each other. Write an essay discussing the factors that make it important for any country to export to and import from other countries.

الإجابة:

Export and import are very important for the economy of any country. I am going to write the factors that make it important for any country to export to and import from other country.

There are many factors that make it important to export to and import from other countries. For example, countries need to exchange goods that they lack. Moreover, by export and import, countries improve their relationships with other countries. In addition, export and import are good ways to improve the economy of the country and offer more job opportunities as a result.

I think, our country should export and import goods to improve its economic conditions.
