According to a study carried out by Pennsylvania State University, USA, multilingual people are able to switch between two systems of speech, writing, and structure quite easily. Text Sixteenth: My job as an interpreter

My name is Fatima Musa and I have worked as an interpreter for five years. Many students have emailed me about my work because they want to know what it would be like to do my job. So here is my reply. I have always been fond of languages. My father worked in many different countries when I was young and we usually travelled with him. When we visited a country, I always wanted to learn the language. At school I was very good at English. Therefore, I decided on a career as an interpreter. My job now involves going to important conferences and seminars around the world. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. This means that anyone in the room who speaks Arabic can understand what people are saying. Is it an easy job? Not at all. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words that people use in the UK, the USA or Australia. As well as knowing regional English, you also need to know a lot of specialist language. Some of the words that are used to talk about business, science or law, for example, make it almost a different language! Unless you have a language degree, you will not be able to become an interpreter. Provided that you have a postgraduate qualification, you will probably get a job as an interpreter quite quickly. If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time. If you are successful, it is a secure and rewarding job. You will probably need to travel a lot, but that is not a problem as long as you enjoy visiting other countries. It is a very responsible job. I am aware that if I translate things badly, **it** could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate.

- 1- Quote the sentence that indicates that Fatima decided to work as an interpreter.
- 2- Quote the sentence showing that the English words used in India are different from other languages.
- 3- Mention the things that you need to do when the translator has an interview , mention of them.
- 4- Why did Fatima decide to work as an interpreter.
- 5- What language did Fatima translate into at the conference?
- 6- Find a word in the text that means (**Who translates spoken words from one language to another**)
- 7- What does the underlined word (**it**) refer to?
- 8- A successful translator is one who translates texts carefully without making any mistakes. Write down your point of view in two sentences.

Question One:

Read the following text carefully, and then in your ANSWER BOOKLET answer all the question that follow each text. Your answers should be based on the two texts. (50 points)

Text One: (25 points)

My name is Fatima Musa and I have worked as an interpreter for five years. When a person speaks in English at a conference, I listen to what they say through headphones. I then translate into Arabic while the speaker is talking. I give the translation through headphones to other people at the meeting. This means that anyone in the room who speaks Arabic can understand what people are saying. Is it an easy job? Not at all. English is not the same in all English-speaking countries. For example, the English words that are used in India are sometimes different to the words that people use in the UK, the USA or Australia. As well as knowing regional English, you also need to know a lot of specialist language. If you get an interview for a job, you will need to show that you have good listening skills and a clear speaking voice. You will also need to show that you can think quickly and that you are able to concentrate for long periods of time. If you are successful, it is a secure and rewarding job. I am aware that if I translate things badly, it could affect an important law or trade agreement between countries. However, you get a huge feeling of satisfaction when you know that people understand everything that you translate.

- 1- Why was Fatima using headphones at the conference? (3 points)
- 2- Quote the sentence showing that the English words used in India are different from other languages. (5 points)
- 3- Find a word in the text which means (Giving personal satisfaction). (4 points)
- 4- Mention the things that you need to do when the translator has an interview, write down two of them. (4 points)
- 5- What does the underlined word pronoun (it) refer to? (4 points)
- 6- Quote the sentence that indicates that the translator, if he translates the words incorrectly, will negatively affect the trade relations. (6 points)

Text Two: (25 points)

Interviewer: Prepare and practice Plan your presentation carefully, not just what you will say, but how you will say it. Will you read it word by word, use notes or memorize it? Whatever you decide, it is always a good idea to have a list of your main points, in case something interrupts you, or you simply freeze with nerves then practice it, if possible in front of colleagues. Make changes and practice it again.

Interviewer: Be professional Keep your presentation short and simple. Start with some friendly comments. For example, thank your hosts for allowing you to speak to them, and compliment their company. Remember to speak slowly and clearly. It is important to appear confident (even if you're nervous!). While you're speaking, don't keep your head down. Instead, look round the room and make eye contact with your audience. Smile! When you've finished speaking, invite questions. If you don't know the answers, don't pretend! Thank the questioner and promise to find out the answer. Finally, have a summary of your presentation ready to hand out at the end of the session. I wish I had known all this when I started out in business! Good luck!

- 1- Suggest three points about successful ways of doing a presentation in front of a group of people. **(8 points)**
- 2- You can do many things to appear confident while the presentation. Mention them. **(4 points)**
- 3- According to the text, you should start your presentation with friendly comments. Give two examples from the text. **(4 points)**
- 4- Quote the sentence that shows that the presenter must look for the answer if he/she does not know it. **(5 points)**
- 5- It always a good idea to have a list of your main points. Mention the reason. **(4 points)**

Question Two:

Everyone knows that the internet connects people, but now it does more than that – it connects objects, too. These days, computers often communicate with each other, for example, your TV automatically downloads your favourite TV show, or your 'sat nav' system tells you where you are. This is known as the 'Internet of Things', and there's a lot more to come.

In just a few years' time, experts say that billions of machines, will be connected to each other and to the internet. As a consequence, computers will increasingly run our lives for us. Text (A)

Young people love learning, but they like learning even more if they are presented with information in an interesting and challenging way. Today, I am going to give a talk about how you can use technology in Jordanian classrooms.

Many classrooms now use a whiteboard as a computer screen. As a consequence, teachers can show websites on the board in front of the class. Teachers can then use the internet to show educational programs, play educational games, music, recordings of languages, and so on.

In some countries, tablet computers are available for students to use in class. Therefore, students can use the tablets to do tasks such as showing photographs, researching information, recording interviews and creating diagrams.

Students often use computers at home if they have them. Students can use social media on their computers to help them with their studies including asking other students to check and compare their work, asking questions or sharing ideas. Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour which has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai. The boy caught Sheikh Hamdan's attention with his invention – a prosthetic limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg.

Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. Read the following text carefully then in your answer booklet answer all the questions that follow. Your answers should be based on the text.

Today, we talk to Mr Ghanem, a businessman based in Amman who often visits China. We asked him when he first started doing business with China. 'I've been doing business with China for many years. My first trip there was in 2004 CE, and it was not very successful.

The interviewer: 'Why was it not successful? 'I worked for a small computer company in Amman. They sent me to China when I was still quite young. If only the company had realized that the Chinese respect age and experience more than youth!'

The interviewer: When did you learn how to be successful in China? 'I joined a larger company and they sent me on a cultural awareness course. On my next visit to China, it felt as if I hadn't known anything on my first visit!'

The interviewer: What advice can you give to people wanting to do business in China? 'Before I visit a company, I send recommendations from previous clients. I also send my business card with my job position and qualifications translated into Chinese.'

The interviewer: Can you tell us about your last meeting in China? 'Of course! I arrived on time. You must not arrive late, as this shows disrespect. Then, when I met the company director, I shook hands with him gently. I began the meeting by making small talk about my interesting experiences in China.
