**Read the following texts then answer the questions below.**

**Text (1)**

Ten-year-old Adeeb al-Balooshi, from Dubai, is going to travel to seven countries on a tour which has been organised and funded by Sheikh Hamdan bin Mohammad, Crown Prince of Dubai. The boy caught Sheikh Hamdan's attention with his invention – a **prosthetic** limb for his father. The Sheikh has taken a special interest in the boy, and hopes the tour that he is sponsoring for Adeeb will give the young inventor more self-confidence and inspire other young Emirati inventors.

Adeeb got the idea for a special kind of prosthetic leg while he was at the beach with his family. His father, who wears an artificial leg, could not swim in the sea as he could not risk getting his leg wet. This inspired Adeeb to invent a waterproof prosthetic leg.

Adeeb is going to visit the USA, France, the UK, Ireland, Belgium, Italy and Germany, where he will be staying with relatives. However, while he is in Germany, Adeeb will not be spending all his time sightseeing. **He** will be working with a specialist doctor to build the appendage. He will also be attending a course on prosthetics and learning about different kinds of medical apparatus.

Adeeb has invented several other devices, including a tiny cleaning robot and a heart monitor, which is attached to a car seat belt. In the case of an emergency, rescue services and the driver's family will be automatically connected with the driver through this special checking device. He has also invented a fireproof helmet. This special equipment, which has a built-in camera system, will help rescue workers in emergencies. It is for these reasons that Adeeb rightly deserves his reputation as one of the youngest inventors in the world.

**Questions:**

1. Adeeb has invented many things that were highly valued. Mention two of them.
2. Quote the sentence which shows that his father couldn't swim for a specific reason.
3. Adeeb is going to travel to seven countries in a tour. Write down four countries.
4. Replace the underlined word "**prosthetic**" with a word that has the same meaning.
5. What does the underlined suffix "**proof**" in the word "**waterproof**" mean?
6. What does the underlined pronoun "**he**" refer to?

## Text (2)

The King Hussein Cancer Center (KHCC) is Jordan's only comprehensive cancer treatment centre. It treats both adult and paediatric patients. As the population of the country increases, more and more families will rely on the hospital for cancer treatment. Patients come not only from Jordan but also from other countries in the region, as they are attracted by its excellent reputation, lower costs, and cultural and language similarities.

In order to cope with the increase in demand for treatment, the KHCC has begun an expansion programme. Building started in 2011 CE. The hospital will have more than doubled its capacity by 2016 CE, increasing space for new cancer cases from 3,500 per year to 9,000.

By then, they will have added 182 extra beds, along with bigger units for different departments, including radiotherapy. New adult and paediatric wards will have opened. Additionally, they will have built a special ten-floor outpatients' building, with an education centre which will include teaching rooms and a library.

Many cancer patients live far away from Amman, where the KHCC is located, and the journey to and from the hospital is often difficult. For this reason, there are plans to extend cancer care facilities to other parts of Jordan. In the near future, King Abdullah University Hospital in Irbid hopes to set up radiotherapy machines, so that cancer patients from northern Jordan will not have to go to Amman for radiotherapy treatment.

### Questions:

1. Patients from other countries are attracted for the KHCC for different reasons. Write down two of them.
2. What does the underlined pronouns (**which**) refer to?
3. When building the new education centre, the building will have two types of rooms. Write them down.
4. Quote the sentence which shows that KHCC is the only centre for treating cancer in Jordan.
5. What does the underlined word (**reputation**) mean?
6. Cancer patients face many difficulties in life. **Suggest** three ways in which we can help them .

### Text (3)

Many classrooms now use a whiteboard as a computer screen. As a consequence , teachers can show websites on the board in front of the class. Teachers can then use the Internet to show educational programmes, play educational games, music, recordings of languages, and so on.

In some countries, tablet computers are available for students to use in class. Therefore , students can use the tablets to do tasks such as showing photographs, researching information, recording interviews and creating diagrams. Tablets are ideal for pair and group work.

Teachers can perhaps ask their students to start writing a **blog** (an online diary), either about their own lives or as if they were someone famous. They can also create a website for the classroom. Students can contribute to the website, so for example they can post work, photos and messages.

We all like to send emails, don't we? Email exchanges are very useful in the classroom. Teachers can ask students to email what they have learnt to students of a similar age at another school. They could even email students in another country. As a result, students can then share information and help each other with tasks.

Students often use computers at home if they have **them**. Students can use social media on their computers to help them with their studies, including asking other students to check and compare their work, asking questions and sharing ideas. The teacher must be part of the group, too, to monitor what is happening.

#### Question Number One: (20 points)

1. By using whiteboard, teachers can use the internet to do different things. Mention two of them.
2. Quote the sentence which shows that tables are good for helping each other.
3. Using email exchanges in class has some benefits. Write down two.
4. What does the underlined word "**blog**" mean?
5. What does the underlined pronouns ( **them**) refer to?
6. Nowadays, people use social media in everyday life. **Suggest three uses** people can do when they have computer at home.
7. Researchers think that using technology in class will lead to positive developments in the education process. **Think of this statement** and in two sentences write down your point of view.

## Text (4)

### Introduction

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

### Healthcare centres:

As a result of careful planning, the number of healthcare services has been increasing rapidly over the past years. More than 800 different kinds of healthcare centres have been built, as well as 188 dental clinics. In 2012 CE, 98 per cent of Jordanian children were fully immunised, thanks to immunisation teams that had been working towards this goal for several years. Although there were remote areas of the country where people had been without consistent access to electricity and safe water, almost 99 per cent of the country's population now has access.

### Hospitals:

Although the country has been focusing mainly on improving its primary healthcare facilities, it has not neglected its advanced medical facilities. The reputation of Jordanian doctors has spread in the region, and now many more patients come to Jordan for open heart surgery. In Jordan, the open heart surgery programme started in 1970 CE in Amman.

### Life expectancy:

The life expectancy figures show that Jordan's healthcare system is successful. In 1965 CE, the average Jordanian's life expectancy was age 50. In 2012 CE, this average life expectancy had risen to 73.5. According to UNICEF statistics, between 1981 CE and 1991 CE, Jordan's infant mortality rates declined more rapidly than anywhere else in the world – from 70 deaths per 1,000 births in 1981 CE to only 32 deaths per 1,000 births in 2014 CE.

### Conclusion:

The low infant mortality rate, as well as the excellent healthcare system, have been contributing factors to Jordan's healthy population growth, which will result in a strong work force with economic benefits for the whole country.

### QUESTIONS:

1. Quote the sentence that shows the reason behind being Jordan among the best in the Middle East.
2. Different elements have made our life healthier. Write down two of them.
3. There are many results of having excellent healthcare system and low infant mortality. Mention two.
4. What does the underlined pronouns (its) refer to?
5. Find a word from the text that means " the length of time that a person or animal is expected to live".

**Literature Spot:**

**A: Read the following stanza from " A Green Cornfield", then answer the questions.**

A stage below, in gay accord,

White butterflies danced on the wing,

And still the singing skylark soared,

And silent sank and soared to sing.

- 1. If something is "accord", what does that mean?**
- 2. What is the rhyme of the poem? Explain.**

The cornfield stretched a tender green

To right and left beside my walks;

I knew he had a nest unseen

Somewhere among the million stalks.

- 1. Which part of the plant is the stalk?**
- 2. What does the green color symbolize for?**

**Question Number Two:**

**A. Choose the suitable items from those given in the box to complete the following paragraph. There are more words than you need.**

**Model whiteboard tablets blog calculation**

1. I need to make a few \_\_\_\_\_s before I decide how much to spend.
