

1. Read the following text carefully then answer the question that follows:-

Students often use computers at home if they have them. Students can use social media on their computers to help **them** with their studies, including asking other students to check and compare their work, asking questions and sharing ideas. The teacher must be part of the group, too, to monitor what is happening.

What does the underlined word "them" refer to?

- A. computers
- B. students
- C. studies
- D. questions

2. Read the following text carefully then answer the question that follows:-

Health conditions in Jordan are among the best in the Middle East. This is largely due to the country's commitment to making healthcare for all a top priority. Advances in education, economic conditions, sanitation, clean water, diet and housing have made our community healthier.

Find a word in the text which has the same meaning as "a promise to do something or to behave in a particular way"

- A. sanitation
- B. diet
- C. commitment
- D. healthcare

3. Read the following text carefully then answer the question that follows:-

The King Hussein Cancer Center (KHCC) is Jordan's only comprehensive cancer treatment centre. It treats both adult and paediatric patients. As the population of the country increases, more and more families will rely on the hospital for cancer treatment. Patients come not only from Jordan but also from other countries in the region, as they are attracted by its excellent reputation, lower costs, and cultural and language similarities.

The King Hussein Cancer Center treats two different kinds of patients. Who are they?

- A. It treats both adult and paediatric patients.
- B. The King Hussein Cancer Center is Jordan's only comprehensive cancer treatment center.
- C. As the population of the country increases, more and more families will rely on the hospital.
- D. Patients come not only from Jordan but also from other countries in the region.

4. Read the following text carefully then answer the question that follows:-

Al-Kindi was a physician, philosopher, mathematician, chemist, musician and astronomer – a true polymath. He made ground-breaking discoveries in many of these fields, but it is probably his work in arithmetic and geometry that has made him most famous.
