Question Two Read the following two texts then answer all the questions that follows each text.

Text A

Scientists have already developed brain implants that improve vision or allow disabled people to use their thoughts in order to control prosthetic limbs like arms, legs or hands, or operate a wheelchair. In 2012 CE, research on monkeys showed that a brain implant improved their decision-making abilities. How will humans benefit from this research? Scientists hope to develop a similar device to help people who have been affected by brain damage, which could be caused by dementia, a stroke or other brain injuries.

In 2010 CE. Neuroscientists confirmed that it was possible to communicate with some patients in a coma by a special brain scanner. They suggested that, in the future, more meaningful dialogue with patients in a coma would be possible. Two years later, it has finally happened. The scanner, used on a man who has been in a coma for more than twelve years, proves that he has a conscious, thinking mind – a fact that had previously been disputed by many.

A new cancer drug is being trialed in Plymouth, UK, which doctors hope will extend the lives of cancer patients and reduce their symptoms overnight. It is taken as a single pill every morning, and so far patients have shown none of the usual side effects such as the sickness and hair loss that are experienced when undergoing other forms of cancer treatment. The new treatment works by blocking a protein which causes cancerous cells to grow. It will improve patients' life expectancy and quality of life much more quickly than any other treatment.

1. According to the text, there are many benefits of the new cancer drug. Write down them.
2. There are two side effects which appear when patient undergo the usual cancer treatment. Write down these two side effects.
3. Brain damage can be caused by different factors. Write down two of these factors.
4. Quote the sentence which explains how the new cancer drug works.
5. The text mentions the benefits of brain implants for people. Mention two benefits.
6. Find a word in the text which means a mental illness.
7. What does the underlined pronoun (it) refer to?
8. The dramatic improvement of life expectancy that characterized the 20th century is due to many reasons. Write down three of these possible reasons.

Text B

It is said that the best way to acquire a language is to immerse yourself in it, and that's what we offer at Extreme English: total immersion.

You have to determine two things before attending such a course; the duration of the course you wish to attend and the nature of the course whether academic or vocational.

After joining the course, you will stay in one of our beautiful apartments. You'll hear and speak English all day long. You can either join a small group of other students of a similar level, or request a 'tailor-made' course. For example, you may require a course in academic English to prepare you for undergraduate or postgraduate studies, or a vocational course to help you with your career. Either way, you will live and work together as a family.

In the mornings, after breakfast, one or more of our trained and experienced teachers will arrive, and you will have three hours of intensive tuition. Then, after enjoying lunch together around the table, you'll visit local places of interest, go shopping, take part in sports, etc. In the evenings, there will be a choice of cultural activities, for example the theatre or a concert, or you may prefer to relax at home and chat (in English, naturally!). Whatever you do, your teachers will be with you, acting as guides, tutors and friends.

1. In the evening student at Extreme English can practice some activities. Write down two of them.
2. Before arriving to carry out a course at Extreme English, students have to make two decisions. Write down these decisions.
3. Quote the sentence which shows how teachers can support their students at Extreme English.
4. Find a word in the text which means " **be deeply involved in something and most of time doing it** "
5. There are two main types of courses that required by learners at Extreme English. What are they?
6. What does the underlined word " **it** " refer to?
7. Learning foreign languages is important and essential for all people because it opens many opportunities for students, employees and job seekers. Think of this statement, and in two sentences write down your point of view.
