**The Second Exam for seventh grade  
First Semester 2024/2025**

**Section: A/B /C**

**Time: 40 minutes**

**Student's Name: .....**

**1)Read the text and answer the following questions: (3 marks)**

Masdar city is a special new neighborhood in Abu Dhabi, the capital city of United Arab Emirates. The designers are creating houses and buildings that are all new. The buildings don't use much energy because they use traditional materials. An example is the mosque. In the UAE mosques used to be made of earth from the ground we usually build new mosques using stone, but they use the same earth as traditional mosques to build the new Masdar city mosque. That is because the material keeps building cool. The mosque also produces all energy it needs using solar panels which take energy from the sun. The buildings in Masdar city are very close to each other so that there is not much sun on the pavements.

**A- Where is Masdar city?**

**B- Why don't the buildings use much energy?**

**C- Mention two points that show how does Masdar city mosque differ from our usual mosques?**

.....  
.....
