**Question Two: (30 points)**

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Most doctors used to be sceptical about the validity of homoeopathy, acupuncture and other forms of complementary medicine. If patients wanted to receive this kind of non-conventional treatment, they used to have to consult a private practitioner who was likely not to have a medical degree. However, in recent years, the perception of this type of treatment has changed. These days, many family doctors study complementary medicine alongside conventional treatments, and many complementary medicine consultants also have medical degrees.

At a surgery in London, 70 per cent of patients who were offered the choice between a herbal or a conventional medicine for common complaints such as insomnia, arthritis and migraines chose the herbal remedy. Fifty per cent of patients then said that the treatment helped. One doctor said, "I now consider homoeopathy to be a viable option for many different conditions. It provides another option when conventional medicine does not address the problem adequately."

However, complementary medicine cannot be used for all medical treatments. It can never substitute for immunisations as it will not produce the antibodies needed to protect against childhood diseases. It also cannot be used to protect against malaria. One doctor said, "I will always turn to conventional medical treatment first to ensure that no underlying condition is missed."

- 1) Three medical conditions can probably be treated using complementary medicine. Write them down. (9 points)
- 2) There are two reasons which assure that complementary medicine cannot be used for all medical treatments. Write down these two reasons. (6 points)
- 3) Write down the sentence which states that the majority of doctors were doubtful about the efficiency of the types of complementary medicine. (5 points)
- 4) Find a word in the text which means the same as "having been used for a long time and is considered usual." (4 points)
- 5) It is said that prevention is better than cure. Suggest three possible ways people can follow to protect themselves against common diseases. (6 points)

**Question Three: (30 points)**

A) Read the following interview carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the interview.

(24 points)

Today, we talk to Mr Ghanem, a businessman based in Amman who often visits China. We asked him when he first started doing business with China.

‘I’ve been doing business with China for many years. My first trip there was in 2004 CE, and it was not very successful.’

**Why was it not successful?**

‘I worked for a small computer company in Amman. They sent me to China when I was still quite young. If only the company had realised that the Chinese respect age and experience more than youth!’

**Did you make any mistakes on that visit?**

‘Yes! I wish I had researched Chinese culture before I visited the country. In order to be successful in China, you need to earn their respect. Chinese business people will always ask about a company’s successes in the past. However, because I worked for a new company, I could not talk about its track record. We did not do any business deals on that first trip.’

**Can you tell us about your last meeting in China?**

‘Of course! I arrived on time. You must not arrive late, as this shows disrespect. Then, when I met the company director, I shook hands with him gently. I began the meeting by making small talk about my interesting experiences in China. During the meeting, I made sure that my voice and body language were calm and controlled. I never told a joke, as this may not be translated correctly or could cause offence.’

- 1) Mr Ghanem followed certain procedures during his last meeting which made it successful. Write down two of these procedures. (6 points)
- 2) Mr Ghanem's first business trip to China in 2004 was not fruitful for two main reasons. Write them down. (4 points)
- 3) What does the underlined word there refer to? (4 points)
- 4) Why was Mr Ghanem unable to talk about the company's track record in his first business trip to China? (4 points)
- 5) There are many business ideas that enable young people to start a small business with low investment to earn profits. Think of this statement, and in two sentences write down your point of view. (6 points)

**B) Literature spot (6 points)**

Read the following extract from *Around the World in Eighty Days* then answer the questions that follow.

They soon reached a small hut. Enclosed within some high palings, was the animal in question. An Indian came out of the hut, and, at their request, conducted them within the enclosure. The elephant, which was reared, not to be an animal that merely carried things around, but for warlike purposes, was half-domesticated. Happily, however, for Mr Fogg, the animal's instruction in this direction had not gone far, and the elephant still preserved its natural gentleness.

- 1) Which words in the text indicate that the elephant was kept away from human interaction? (4 points)
- 2) What does the underlined phrase in this direction in the extract above refer to? (2 points)

**Question Four: (20 points)**

**FREE WRITING**

In your ANSWER BOOKLET, write a composition of about 120 words on ONE of the following:

- 1) Some people think that advertisements control what we purchase, while others think they are useful sources of information on products. Discuss both sides and give your opinion.
- 2) Goal setting is a powerful process for thinking about your ideal future and motivating yourself to turn your dreams into reality. Write about three specific goals you want to achieve this year and explain how you are going to achieve them.
