Question Two: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Masdar City will run entirely on renewable energy sources. It is built on an advanced energy grid which monitors exactly how much electricity is being used by every outlet in the complex. In order to reduce its carbon footprint, Masdar City will be a car-free zone, designed to be pedestrian and cycle-friendly.

Energy will be provided by solar power and wind farms, and there are also plans to build the world's largest hydrogen plant. Biological waste will be used as an energy source too, and industrial waste will be recycled.

The current residents of Masdar City are all students at the Masdar Institute of Science and Technology, a university whose students are fully committed to finding solutions to the world's energy problems.

While the project has the support of many global, environmental and conservation organisations, there is some criticism of it. It is felt that, instead of building an artificial sustainable city, sustainability should be made a priority of existing cities.

1. There are many sources of energy that Masdar City will use. Write down three of them.

(6 points)

2. What is the main criticism of Masdar City?

Question Three: (30 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Interviewer: Did you make any mistakes on that visit?

Mr Ghanem: 'Yes! Chinese business people will always ask about a company's successes in the past. However, because I worked for a new company, I could not talk about its track record. We did not do any business deals on that first trip.'

Interviewer: What advice can you give to people wanting to do business in China?

Mr Ghanem: 'Before I visit a company, I send recommendations from previous clients. I also send my business card with my job position and qualifications translated into Chinese.'

Interviewer: Can you tell us about your last meeting in China?

Mr Ghanem: 'Of course! I arrived on time. You must not arrive late, as this shows disrespect. Then, when I met the company director, I shook hands with him gently. I began the meeting by making small talk about my interesting experiences in China. During the meeting, I made sure that my voice and body language were calm and controlled. I never told a joke, as this may not be translated correctly or could cause offence.'

1. Two reasons prevented Mr Ghanem from telling jokes during his last meeting in China. Write them down. (6 points)
2. Two things are done by Mr Ghanem before visiting a company in China. Write them down. (6 points)

Question Two: (20 points)

Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text.

Scientists have successfully invented a prosthetic hand with a sense of touch. It is an exciting new invention, which they plan to develop. It is possible that, in the not-too-distant future, similar artificial arms and legs will have taken the place of today's prosthetic limbs.

Dennis Sorensen, a 39-year-old from Denmark, was the first person to try out the new invention. After losing his left hand in an accident, he had been using a standard prosthetic hand for nine years. The new hand, which was developed by Swiss and Italian scientists, was a huge improvement. With it, Sorensen could not only pick up and manipulate objects, but he could also feel them. 'When I held an object, I could feel if it was soft or hard, round or square,' he explained. He said that the sensations were almost the same as the ones he felt with his other hand.

Unfortunately, Sorensen was only taking part in trials, and the equipment is not ready for general use yet. He was only allowed to wear it for a month, for safety reasons. So now he has his old artificial hand back. However, he hopes that soon he will be wearing the new type of hand again. He is looking forward to the time when similar artificial limbs are available for the thousands of people who need them. He will have helped to transform their lives.

- 1) Using his prosthetic hand, Dennis Sorensen could do three things. Write them down. (6 points)
- 2) Why isn't Sorensen wearing his new artificial hand? (4 points)
- 3) Write down the sentence which states who improved the new invention: the prosthetic hand. (3 points)

Question Two: (20 points)

A) Read the following text carefully, and then in your ANSWER BOOKLET answer all the questions that follow. Your answers should be based on the text. (17 points)

In England, almost 50% of school leavers go on to higher education. The figure has not always been as high as this. Twenty years ago, it was closer to 30%, and thirty years before that, it was only about 5%. Another huge change has been financial. Before 1998 CE, higher education in the UK was completely free for UK citizens. Since then, tuition fees have been introduced. Most students borrow this money from the government. They don't have to repay it immediately. Instead, they pay it back slowly out of future earnings.

Despite the high cost, most students choose to study away from home. A recent survey of 17,000 students revealed that only 7% wanted to stay at home while they studied for their degree. Of course for most young people, living away from home means borrowing even more money from the government. So why don't students choose to avoid debt by staying at home, where they don't have to pay rent? Most of them say that they want to move to the University their Choice, rather than the nearest one. Another strong motive is the desire to live in a new culture. Where do these students live? Many have rooms in halls of residence, especially in their first year; others rent flats or houses. A lucky minority live in property that their parents have bought for them. Most of them need to learn to cook, do their own washing and manage their time and money.

1. Students who choose to study abroad may live in different places. Write down two of these places. (4 points)
2. Two major changes have occurred in higher education in England. One of them is financial. Mention the other change. (2 points)
3. Write down the sentence which states the skills that most students need to learn when living away from home. (3 points)
4. Find a word in the text that means "money you owe". (2 points)
5. What does the underlined word "it" refer to? (2 points)
6. Living away from home for university has many benefits. Think about this statement and in two sentences write down your point of view. (4 points)

‘Do we stop here?’

‘Certainly. The railway isn’t finished.’

‘What! Not finished?’

‘No. There’s still a matter of fifty miles to be laid from here to Allahabad, where the line begins again.’

‘Yet you sell tickets from Bombay to Calcutta,’ retorted Sir Francis, who was growing warm.

‘No doubt,’ replied the conductor, ‘but the passengers know that they must provide means of transportation for themselves from Kholby to Allahabad.’

- What does the expression "**growing warm**" suggest about Sir Francis?
